

BALL DIAMOND MAINTENANCE & PREPARATION

Diamond request made by non-recreation department programs (Home Talent, Legion, VFW, Youth Traveling Teams, and Church League) will be handled in the following manner:

1. The Parks Department will drag the fields for games that are deemed non-Recreation Department activities. Dragging refers to operating a tractor with a pull-behind drag. Weekend dragging requirements will be done on Fridays. Rain situations will be handled by the team(s) involved, including any other work that may be needed to the playing field.
2. Hand raking, mound and plate preparation, and chalk lining is the responsibility of the groups involved.
3. Equipment needed for this maintenance includes a chalk liner, chalk, lute (diamond rake), string and reel, and a tamp. These items will not be made available through the Recreation Department and could be purchased and shared by the organizations involved.

Council adopted: 1/25/94
